 German
 October 10th 1972
 male (married, two children)

Work experience

Dates
 Occupation or position held
 Main activities and responsibilities
 Name and address of employer
 Type of business or sector

April 2012 – present

Head of Research and Development

Ludwig Boltzmann Institute for Archaeological Prospection and Virtual Archaeology
 Coordinating the research and development programme of the institute in collaboration with its director Prof. Wolfgang Neubauer
 Ludwig Boltzmann Gesellschaft, Nußdorfer Straße 64, 1090 Vienna, Austria
 Tel +43 (0)1 513 27 50 / Fax +43 (0)1 513 23 10 / office@lbg.ac.at
 Academic, Research and development

Dates
 Occupation or position held
 Main activities and responsibilities

July 2010 – April 2012

Key-researcher Geophysical Archaeological Prospection

Ludwig Boltzmann Institute for Archaeological Prospection and Virtual Archaeology
 Scientific leadership of research Programme Line 2 (large-scale, high-resolution geophysical prospection surveys in Austria and abroad, development and improvements of efficient, motorized geophysical measurement systems, novel data processing and visualisation software and measurement methodology), dissemination and publication of results.

Dates
 Occupation or position held
 Main activities and responsibilities

March 2005 – June 2010 (currently off-duty)

Development and Exploration Geophysicist

Responsible for the development, start-up and operation of a professional archaeological prospection unit at the Swedish National Heritage Board. Planning of system configuration, hardware acquisition and software design. Marketing, organization and execution of some 50 archaeological prospection surveys. Acquisition, processing, interpretation and presentation of high-resolution geophysical data.

Name and address of employer
 Type of business or sector

Swedish National Heritage Board, Contract Archaeology Service, Instrumentvägen 19, 126 53 Hägersten, Sweden
 State department / Commercial service provider

Dates
 Occupation or position held
 Main activities and responsibilities

June 2004 – February 2005

Senior Research Associate

Development of an interactive 3D visualization and interpretation software for 3D laser scanner data of geological outcrops (the virtual outcrop) and development of a novel data processing and visualization method for the recording of pre-historic rock art using laser scanning.
 3D and 4D visualization of micro seismicity for the analysis of fracture zones and fracture propagation (earthquake studies and induced fracturing in reservoirs).

Name and address of employer

Durham University, Department for Earth Sciences, e-Science Research Institute, South Road, Durham DH1 3LE, England

Type of business or sector

Academic, Research institute

Education and training

Dates

October 1999 – February 2004

Title of qualification awarded

Doctor of Philosophy (PhD Cantab)

Principal subjects/Occupational skills covered

Geophysics (Thesis title: *Travel-time tomography of densely sampled seismic data*)
Development of a 2D seismic travel-time tomography algorithm for velocity and interface inversion of reflection and refraction data. The forward modelling is performed using ray tracing in an adaptive triangulated velocity model. The linearised inversion minimizes the misfit between observed and modelled data and results in a velocity-depth model that may be used as starting model for full waveform inversion. The algorithm was successfully tested on synthetic data of a realistic crustal model and on real exploration seismic data from the north east Atlantic Margin.

Name and type of organization providing education and training

Cambridge University, Department of Earth Sciences, Bullard Laboratories, UK
Supervisors: Prof. Satish Singh, Dr. Penny Barton, Prof. Chris Chapman

Dates

January 1996 – June 1999

Title of qualification awarded

Diploma in Geophysics (Dipl. geophys.)

Principal subjects/Occupational skills covered

Applied geophysics, General geophysics, Theoretical Geophysics, Geology, Physics
Near surface geophysics / Geophysical archaeological prospection

Name and type of organization providing education and training

Thesis title: *Processing and Visualization of 4-D Georadar Data*

Christian-Albrecht's University, Kiel, Germany

Supervisor: Dr. Harald Stümpel

Dates

November 1993 – December 1995

Title of qualification awarded

Pre-diploma in Geophysics

Principal subjects/Occupational skills covered

Applied geophysics, General geophysics, Applied Physics, Theoretical Physics, Mathematics, Chemistry, Mineralogy

Name and type of organization providing education and training

Ludwig-Maximilian's University, Munich, Germany

Dates

September 1992 – October 1993

Title of qualification awarded

Civil service

Principal subjects/Occupational skills covered

Geophysical archaeological prospection, Topographic surveying, Assistance in the archive for aerial photographs

Name and type of organization providing education and training

Bavarian State Department for Historical Monuments, Munich, Germany

Other skills and competences	<p>Geophysical prospection experience:</p> <p>Participation and scientific responsibility for geophysical prospection surveys in connection with LBI ArchPro Case studies conducted at Stonehenge, Uppåkra, Birka and Gamla Uppsala (Sweden) and Vestfold County (Norway).</p> <p>Responsibility for 50 near surface geophysical prospection surveys conducted in Sweden, Norway, The Netherlands and on Cyprus between 2005 and 2010 and participation in georadar test surveys in Austria in 2005.</p> <p>1999: Responsibility for magnetic prospection of the ancient town of Milet (Turkey).</p> <p>2000: Geomagnetic prospection of the Roman town of Carnuntum (Austria) in collaboration with the Vienna Institute for Archaeological Science and the Inst. for Meteorology and Geodynamics in Vienna.</p> <p>1996–1999: Participation in numerous geophysical surveys for archaeological prospection (magnetics, shear-wave-seismic, georadar) in Milet (Turkey), Selinunte (Sicily), Sarissa (Zentral-Anatolia), Dreislar, Trier, Wallendorf, Groß Strömkendorf (Wismar).</p> <p>2012: Participation in the organization of the Geophysics Workshop of the Initiative College for Archaeological Prospection, February 27th - March 1st, Vienna.</p> <p>2012/13: Participation in the organization of the 10th International Conference on Archaeological Prospection 2013 in Vienna.</p>
Computer skills and competences	<p>Operating systems: Linux (Ubuntu, Suse, Red Hat, Fedora, Mandrake) very good / Windows (XP, Vista,7) very good / Unix good / Mac OSX good</p> <p>Office applications: <i>Microsoft Office, L^AT_EX, OpenOffice</i> very good</p> <p>Scientific software: <i>Seismic Unix</i> very good / <i>ProMAX & FOCUS</i> good / <i>ReflexW</i> very good / <i>MATLAB</i> good / <i>Generic Mapping Tools</i> very good / <i>T3D</i> good / <i>Surfer</i> good / <i>ArcMap 9.3 & 10</i> good / <i>Adobe Acrobat Professional</i> good / <i>Adobe Photoshop & GIMP</i> good / <i>VTK</i> good / <i>TclTk</i> good / <i>ImageMagick</i> good</p> <p>Programming: <i>C++ (g++, gdb, gprof, valgrind, doxygen)</i> very good / <i>C (gcc)</i> good / <i>Fortran</i> basic knowledge / <i>bash-scripting</i> good / <i>awk & sed</i> good</p>
Driving licences	<ul style="list-style-type: none"> • Clean European driving license, issued in Germany 1996 • License for recreational/sport boats (German Sportbootführerschein See)
Memberships	<ul style="list-style-type: none"> • EAGE (European Association of Engineers and Geoscientists) • ISAP (International Society for Archaeological Prospection) • AGS (Austrian Geophysical Society)
Scholarships	<ul style="list-style-type: none"> • LITHOS studentship – Cambridge University 1999 - 2004 • Selwyn College Cambridge Studentship 1999

Acquired funding

In 2009 and 2010 I have substantially contributed to the formulation of the successful proposal for the setup of a new Ludwig Boltzmann Institute for Archaeological Prospection and Virtual Archaeology (LBI ArchPro) in Vienna. The new LBI ArchPro opened in April 2010 and receives 4 million EUR from the Ludwig Boltzmann Society for the first 4-year period, in which the total budget of the institute amounts to over **6.7 million EUR**.

2012: **20 000 EUR** (25 000 USD) – National Geographic Society. Digital documentation of the endangered archaeological site of Akrotiri on the island of Santorini/Thera for the safeguard and preservation of this unique monument for future generations.

2011: **42 000 EUR** (400 000 SEK) – Torsten Söderberg Stiftelse. Archaeological prospection of the UNESCO World Cultural Heritage Site Birka-Hovgården and the Iron age settlement Uppåkra with help of airborne laser scanning.

2010: **39 200 EUR** (380 667 SEK) – Research and development funds, Swedish National Heritage Board. Geophysical archaeological prospection of Old Uppsala.

2010: **5 000 EUR** (50 000 SEK) – Stiftelsen Enboms Donationsfond, The Royal Swedish Academy of Letters, History & Antiquities. Archaeological prospection at Hala Sultan Tekke, Cyprus.

2009: **4 100 EUR** (40 000 SEK) – Stiftelsen Rosnaders Donationsfond, Stockholms stadsmuseum. Project: Georadar investigation in Stockholm castle.

2008: **8 300 EUR** (81 000 SEK) – Stiftelsen Klingspors Fond, The Royal Swedish Academy of Letters, History & Antiquities. GPR prospection in the medieval town of Ny Varberg.

2005-2010: Responsibility for archaeological prospection projects conducted by the Swedish National Heritage Board with a total turnover of **386 110 EUR** (project acquisition, execution and reporting).

Teaching and supervision activities

2012: Co-supervision of three PhD students at the University of Vienna

2012: Lectures at Vienna University:

Grundlagen - Geophysikalische Prospektionsmethoden (060056 VO STEOP WS 2012)

Geophysikalische Prospektion (060114 VU WS 2012)

Bodenradar - Theorie und Praxis (060058 VU WS 2012)

Praktikum Geophysikalische Prospektion (SS 2012)

Magnetic and electromagnetic prospection in theory and practice (SS 2012)

2011: *Geophysikalische Prospektion* with Wolfgang Neubauer (060114 VU WS 2011/2012)

Grundlagen geophysikalische Prospektion (060036 VO WS 2011/2012)

Bodenradar – Theorie und Praxis (060080 VU WS 2011/2012)

2010: Leader of the research Programme Line 2 within the LBI ArchPro

2009: Supervision of PhD student at Stockholm University

2007: Introduction to near surface geophysical prospection, 3-day course held at the Archaeological Excavation Department at the Swedish National Heritage Board.

2003: Introduction to computing at Bullard Laboratories, Cambridge University

Participation in 'Physics at Work' presentations at Cavendish Laboratory, Cambridge University

1999: Supervision of students in geophysical fieldwork in Turkey and Austria.

Scientific recognition

- 2013: Invited Management Committee member of the COST Action TU1208 'Civil Engineering Applications of Ground Penetrating Radar'.
- 2012: Invited member of the Scientific Advisory Board of the German Research Foundation Focus Programme 'Häfen von der Römischen Kaiserzeit bis zum Mittelalter'.
- Invited reviewer for the scientific journals *Near Surface Geophysics*, *Archaeological Prospection*, *Journal of Geophysics and Engineering* and *Water Resources Research*.
- Invited independent expert referee for proposals submitted to the European Research Council.

- I. Trinks, P. Karlsson, B. Westergaard, and A. Hinterleitner.
Arkeologisk prospekteringsundersökning. Arkeologisk undersökning med georadar i Istaby. RAÅ 92. Blekinge län, Sölvesborgs kommun, Mjällby socken.
 UV Teknik survey report, Riksantikvarieämbetet - UV Teknik, 2008
- I. Trinks, A. Fogelberg, and A. Hinterleitner.
Arkeologisk prospekteringsundersökning med magnetometer på Mälby gamla bytomt. RAÅ Tillinge 327. Uppsala län, Enköpings kommun, Tillinge socken.
 UV Teknik survey report, Riksantikvarieämbetet - UV Teknik, 2007
- I. Trinks and P. Karlsson.
Ground Penetrating Radar Survey for Archaeological Prospection at Wijk bij Duurstede 2007. Methodology, data acquisition, results, interpretation.
 UV Teknik survey report, Riksantikvarieämbetet - UV Teknik, 2007
- I. Trinks and P. Karlsson.
Ground Penetrating Radar Survey for Archaeological Prospection in Venlo 2007. Methodology, data acquisition, results, interpretation.
 UV Teknik survey report, Riksantikvarieämbetet - UV Teknik, 2007
- I. Trinks and P. Karlsson.
Ground Penetrating Radar and Magnetometer Archaeological Prospection at Zaltbommel 2007. Methodology, data acquisition, results, interpretation.
 UV Teknik survey report, Riksantikvarieämbetet - UV Teknik, 2007
- I. Trinks, P. Karlsson, A. Biwall, L.-I. Larsson, and A. Hinterleitner.
Arkeologisk prospektering med georadar och magnetometer vid Nibble, Tillinge socken. Uppland, Enköpings kommun, Tillinge socken, RAÅ 335.
 UV Teknik survey report, Riksantikvarieämbetet - UV Teknik, 2007
- I. Trinks.
Ground Penetrating Radar Survey for Archaeological Prospection at Mälsåker Slott 2006. Methodology, data acquisition, results, interpretation.
 UV Teknik survey report, Riksantikvarieämbetet - UV Teknik, 2006
- I. Trinks.
Ground Penetrating Radar Survey for Archaeological Prospection at Mälsåker Slott 2006. Methodology, data acquisition, results, interpretation.
 UV Teknik survey report, Riksantikvarieämbetet - UV Teknik, 2006
- I. Trinks.
Ground Penetrating Radar Surveys for Archaeological Prospection at Skänninge 2005. Methodology, data acquisition, results, interpretation.
 UV Teknik survey report, Riksantikvarieämbetet - UV Teknik, 2005
