

A County Body

Part of Vestfold County administration.

- Kulturav is part of Vestfold County Culture Division along with the Department of Culture and Community Health and Vestfold County Library.
- Kulturav exercises the authority assigned to the County under the Cultural Heritage Act.
- When dealing with development cases, we work closely with the Regional Development Division.

The County is an independent political organisation and should not be confused with the County Governor's office, which is a central government body.
